

A VIEW OF THE FALLS

Office of the Mayor - Richard B. Milne

August 6, 2008

Dear Friends;

During the month of August, the Village of Honeoye Falls will begin a program to enhance some of our cross-walks, add some cross-walks and incorporate center road signage that alerts motorists to pedestrian crossings. This effort is to aid in slowing traffic down with-in the Village limits and to also aid in pedestrian safety.

Please alert all drivers that may be traveling through the Village of Honeoye Falls that this program will be underway and that slowing traffic down in the Village is of paramount concern to our local residents.

Pedestrians that do indeed step into a cross-walk area that is not controlled by any type of lighted traffic device have the right away and traffic should yield to their crossing.

Please look for and adhere to these traffic changes for the safety of our children and all residents/pedestrians in our community. Help your village officials spread the word to friends, neighbors and drivers that you know about these upcoming changes.

Sincere Regards,
Richard B. Milne
Mayor, Village of Honeoye Falls
