

A VIEW OF THE FALLS

Office of the Mayor - Richard B. Milne

November 1, 2009

Dear Friends;

Information technology is a very important tool in providing our residents with updates of what's happening in our community: meeting notices, emergency information, updates about new and existing businesses, and general news about what's happening in Honeoye Falls. The Village Board of Trustees has heard from many residents that they'd like to get more village/community information in a timely fashion, and we have a new program that will do just that.

Beginning in November, the Village of Honeoye Falls will begin using email as a primary means to deliver information on a regular basis to our residents. Going forward, anyone who submits their email address to the Village website will be included on our email list, and will then begin receiving email updates from the Village once or twice a week. Your email address will not be provided to anyone, you will not be "spammed," and you can ask to be removed from the list at any time.

Please take part in this new Village program by visiting our website at www.villageoghoneoyefalls.org and clicking on the "Sign up for email from the Mayor" button on the top right corner of the home page. Also, please feel free to forward this email to your local friends and neighbors. Our goal is to have an email address for every interested household in the Village, as we are certain that it will be a useful service for all.

Sincere Regards,
Richard B. Milne
Mayor, Village of Honeoye Falls
