

# A VIEW OF THE FALLS

## Office of the Mayor - Richard B. Milne

July 8, 2010

Greetings from the Village;

As we get through the high temperatures that have affected us all this week, I ask that you keep your neighbors and elderly friends in your thoughts and look out for one another. Check in on friends and family often to make sure they are OK.

The Chamber of Commerce (Movies in the Park) series begins tonight at Harry Allen Park, this is a fun family event...get out and enjoy the movie after a dinner at one of our local eateries!

There have been some recent rumors that some of the businesses that are slated to come to the Village are not coming. This is absolutely not the case. We are very happy with the progress made with Flaherty's Three Flags Restaurant and they are on track and moving forward. In the case of Tractor Supply, there have been some delays not related to the Village but this project is also moving forward and we look forward to this new business coming to the community.

Lastly, the HFL School District has asked for comments as follow-up to the recent graduation ceremony at CMAC. If you attended the event please take time to go to the schools web site and answer the survey questions. This is important feedback for the school and positive dialogue with the community.

Regards,  
Richard B. Milne  
Mayor, Village of Honeoye Falls
