Storm Cleanup Update

Storm Cleanup update and thanks. Well as many will be able to see, there has been great progress made in the clean up efforts. Certainly that is thanks to many of you who have worked hard in your yards and with neighbors to help the clean up process. There are many tree trimming companies working in the village and we thank them for their jobs as well.

A special thanks to the staff of the Town of Mendon who supported our staff today and will again tomorrow. Fantastic effort!

I am also proud to say that many of the other Villages and Towns of Monroe County and our good friends from Lima have also offered support. The Village of Pittsford will be here tomorrow and Saturday to help. The Village of Lima, Village of Webster and Village of East Rochester will all be sending crews and equipment on Monday. We then have Scottsville, Churchville, and the Town of Lima all in the wings for later in the week if needed. This support is so appreciated. It is certainly nice to see our neighbors helping each other and then our municipal neighbors/partners doing the same. We have a ways to go but the sun is shining and the skys are bright!

Thanks to all for the help,
Mayor Rick Milne
