

# A VIEW OF THE FALLS

## Office of the Mayor - Richard B. Milne

July 14, 2014

### Storm CleanupContinues

Storm clean up continues and we thank Mendon, the Villages of Lima, Webster and East Rochester for support today. We're doing our best to get to all calls and provide follow up and apologize if we've missed you. Please don't hesitate to call the Village Office(624-1711) with an address and name if we have indeed missed you.

I want to specifically thank our incredible DPW staff who has done a great job in this clean-up effort. David Ford, Eric Walker, Cody Cessna, Todd Marble and our temporary summer help workers Ethan Parrish, John (JP) Paganelli and Hunter Zimmer - you have all done an incredible job. We all thank you!

Lastly, I also want to specifically mention and thank Brian Anderson (Village DPW) who has been leading the charge on the street. He has done a great job dealing with this storm devastation. Our Village Administrator (Greg Emerson) was out of state this past week and thus, Brian took this lead. Because of our cross-training and Greg's preparation of all our DPW staff, this was seamless. Brian and I have met multiple times each day and I have been very pleased with his efforts in this difficult situation. His dedication to his job and our village helped in making the positive progress we have thus far.

Thanks to all for the help,  
Mayor Rick Milne
