

A VIEW OF THE FALLS

Office of the Mayor - Richard B. Milne

June 15, 2015

Dear Residents:

The weather has continued to reap havoc in our area and certainly in surrounding areas as well. Flooding of yards and streets has been overwhelming. I can attest to the issue as I pumped out my back yard for over 12 hours Friday and Saturday this past week. While it is difficult to continue to deal with, I am grateful that we have not has the excessive flood damage that many of our western NY communities have had.

I appreciated the opportunity to meet directly with Lt. Governor Kathy Hochul this past week at the Village Hall. The Lt. Governor was here to meet with me to discuss concerns I have that affect all of our NY State communities and specific concerns that are priorities for NYCOM (New York State Conference of Mayors) of which I now serve as president. We also spoke about concerns and needs we have specifically here in Honeoye Falls. She was very gracious with her time, the only drawback was that she had really wanted to walk through the Main Street area and visit a couple businesses, but the heavy rain kept that from happening.

This coming weekend is our annual Festival-On-The-Green. One of our communities' largest celebratory events. The event schedule is posted and we hope to see many attend the Friday and weekend events. Remember we have fireworks at the Fireman's Field on Monroe Street Friday night. You certainly want to be in the Village of Honeoye Falls this weekend!

We also look forward to the opening of the new HF Distillery. They will open to the public on Saturday (6/20). We appreciate Scott/Dana Stanton and their partners for their great investment into our community.

Rick Milne, Mayor
Village of Honeoye Falls
